PRECISION, RELIABILITY, AND SUPERIOR SERVICE FOR MISSION-CRITICAL APPLICATIONS.

For over 40 years, Diversified Industrial Products (DIP) has been dedicated to serving the manufacturing sector with unparalleled expertise and commitment to excellence.

As a global leader in specialty metals and custom fabrication solutions, we cater to a wide range of industries including Aerospace, Defense, Medical, Oil & Gas, and more. Our extensive experience and rigorous quality standards make us the go-to source for high-quality metals and parts.

Diversified Industrial Products
SPECIALTY METALS AND CUSTOM PARTS

YOUR SOURCE FOR SPECIALTY METALS AND CUSTOM FABRICATION.

SPECIALTY METALS

High Temperature & Nickel Alloys, Aluminum, Titanium, Brass & Copper, Stainless Steel, Carbon & Alloy Steel, Tantalum, Tungsten, and Molybdenum. Available forms include sheet, plate, bar, tubing, coil, castings, forgings, wire, and extruded shapes.

CUSTOM FABRICATED PARTS

We offer top-quality custom fabrication services, producing parts both domestically and globally to meet the highest standards. Capabilities include turned parts, milled parts, stamped parts, castings, tube welding & fabrication, and machined extrusions.

CASTINGS

High-quality castings at competitive prices, produced through methods such as Centrifugal Casting, Die Casting, Investment Casting, Permanent Mold Casting, Precision Casting, and Sand Casting. Materials include Aluminum, Brass & Copper, Carbon & Alloy Steels, Gray Iron & Ductile Iron, Stainless Steel, and Zinc.

INVENTORY MANAGEMENT

Comprehensive supply chain management services that lower costs, reduce inventory, and improve supply chain efficiency. Programs include Fixed Price LTAs, Blanket Orders, and Consignment Programs.
